"I am grateful for the full scholarship I got to participate in the Art of Mentoring workshop. There is so much learning and genuine relationships developed in just a week. I learned a lot about myself and how to mentor and lead in love."

"There are countless wilderness skills our son Oliver has picked up over five years in the program. But more than anything, he is learning to be conscious, caring, and engaged in human connection and with the natural world.

Scholarship support has made this experience possible for our family, and will nourish us for our lifetimes."

"VWS scholarships have made it possible for my daughter Matti to attend these programs, which are unique and wonderful in so many ways. The artful execution of mentorship functions as a remedy to the chronic redirecting of children's natural impulses in school.

Matti wishes she could go every day, and so do I!"
